RESOURCE MANAGEMENT DIVISION

Application to Amend a Drilling Authority

This application, in triplicate, must be submitted and approved before commencing operations. If the well location is changed, this application must be accompanied where required, with a plan of survey approved by the Surveyor General.

In compliance with the "Canada Oil and Gas Land Regulations", application is hereby made to amend Drilling Authority No. 498, concerning

SOBC WM E. Porcupine YF I-13
(Name and Number of Well)

The following amendments are required:

Expected total final depth changed to 8004' from 6600'

Reasons for the amendments: Information gained upon drilling the well to 6600' indicated a possibility that the Chance Sand could be productive and hence should be evaluated.

Dated at Calgary, this 21 day of April, 1971

Signed by *R. L. Brown*
Title Project Engineer
Company Chevron Standard Limited

(For Resource Management Division use only)

APPROVED
