DESCRIPTION OF OPERATIONS

JOB OBJECTIVE: Abandon Well / Clean location

PRESENT OPERATION: Cleaning Lease / Cut & Cap	From/To
---	---------

09:30 Arrive on location. Inspect well and location. Continue tearing down platform and burning boards as well as digging around wellhead and dismantling wellhead to slingable size pieces. Cut off wellhead, fill top 10 m with cement and cap casing strings with 1/4" steel plate. Weld on marker sign, sling out WH in parts and backfill and level over excavation. Cut off and burn all pilings level with surface. Spread burnt ashes over lease and covered ashes and levelled lease with shale from shale pile. Leave location @ 20:00 hrs and fly to Eagle Plains.
